

# connect

CHILD AND FAMILY SERVICES

## And so we will:

Model in our individual practice the behaviours and processes that give expression to these commitments and affirmations.

Inform our education and care practices with the best professional insights into child development and wellbeing.

Integrate into our education and care practices the protective behaviours that will enable each child to grow in their capacities to promote and protect their own wellbeing and safety.

Welcome and support parents into the development and delivery of our programs.

Be alert to, and act to prevent, the behaviours and situations that might put a child's wellbeing or safety at risk.

Report harm or risk of harm to a child to senior colleagues in Connect and to the relevant authorities.

## Connect's Child Wellbeing Code:

- We are committed to nurturing, protecting and promoting the wellbeing of each child in our care.
- We affirm the rights of each child as expressed in the United Nations Convention on the Rights of the Child.
- We acknowledge that parents and families are the first and most important source of care and education in the life of a child.
- We are dedicated to fulfilling obligations arising from the legislated child protection frameworks under which we operate.

# Nurture. Educate. Grow.
